The Silvapark ski area in Galtür is a true winter paradise and is one of the most snow-sure ski areas in the region. With 43 kilometres of pistes covering all levels of difficulty, there is something for every winter sports family. The special thing about the Silvapark is its unique concept, which is divided into six different sectors. These sectors offer exciting possibilities on the perfectly groomed pistes.

Pistes and sectors

The Silvapark offers a total of 43 kilometres of pistes, including 5 kilometres of easy (blue), 26 kilometres of intermediate (red) and 12 kilometres of difficult (black) runs. Thanks to the ten modern lifts and cable cars, access to the various sectors is quick and easy. Each sector has its own character and offers different experiences:

- **Zwergelwelt:** An area specially designed for children with flat slopes and a magic carpet, ideal for first attempts at skiing.
- **Adventure Land:** For children who are already a little more confident on skis, Adventure Land offers numerous easy runs and direct access to several lifts.
- **Actionpark:** Adrenalin lovers will find challenging freestyle challenges such as the Zeinispark and the Speedway.
- **Heldenreich:** This area is aimed at freeriders and adventure-seekers who want to refine their technique in open terrain away from the groomed pistes.
- **Piste Paradise:** A classic area for skiers and snowboarders of all levels with 43 kilometres of perfectly groomed pistes.
- **High & Nordic:** Here, ski tourers and cross-country skiers can explore the winter landscape away from the pistes.

The ski area also offers a variety of activities such as night skiing, ski safari tours and special freeride routes that lead through the impressive backdrop of the Silvretta mountain range.
